

# YARD GARD

## PROFESSIONAL DETERRENT PRODUCTS

**Yard Gard's line of products have many features and benefits such as:**

- Granular Products labeled for lawns, gardens, turf and golf courses
- Natural, FIFRA 25(B) Minimum Risk Products
- Granular Products can be added to fertilizer for a one-pass application
- Formulated without the use of predator urine that may cause fear and confusion in non-target animals
- Yard Gard has over 100 days of active life, due to the proprietary manufacturing process
- Multiple labels for various markets, utilizing proven formulas

# YARD GARD

## Full Solution 25(B) Minimum Risk Deterrents for Lawn Pests, Wildlife & Structural Pests

Yard Gard is a brand of BGA Industries, LLC created in 2007 to stop wildlife and yard nuisance pests from destroying lawns. All products are available for commercial and residential use. Scientifically proven to repel animals including rats and mice with the newly introduced Rat Dust. All Yard Gard products are Natural, FIFRA 25(B) Minimum Risk Products.
